

«21» 03 2016 № 12/21-004269

Dear Sirs,

We would like to inform you that JSC "Poltava Turbomechanical Plant", founded in 1889, is part of the Concern "NICMAS." Plant manufactures steam turbines with capacity up to 100 MW, spare parts for steam turbines up to 300 MW inclusive, turbocompressors and feed pumps.

JSC "Poltava Turbomechanical Plant" manufactures and supplies:

- rotors in assembly for turbines;
- HPC, IPC, LPC turbine cylinders;
- HPC, IPC, LPC working blades for steam turbines;
- HPC, IPC, LPC diaphragms, sealing to them, nozzle and guide apparatuses;
- Spare parts of regulating and steam distribution systems, thrust bearings, check valve;

JSC "Poltava Turbomechanical plant" manufactures turn-key reconstructions, modernizations and repair of thermal power stations equipment (up to 200 MW inclusive) with expansion of installed capacity of turbine.

More information about our enterprise and about our production you can find on your website www.nicmas.com.
